

Release note - MPI Tech Mainframe Suite

Version: 8.00.05 MVS

Release date: October 1, 2019

Print SubSystem MVS Version 8.00.05 is now available

Print SubSystem™ MVS, PSS is a printing subsystem for z/OS and OS/390. PSS mainframe software provides an AFP, XML and line data printing solution using PCL and PostScript printers.

The AFP to PDF conversion output (z/OS) may either be written to disk or distributed using e-mail or automatically initiated File Transfer.

PSS is simple to install and use, which also provides a reliable method of host generated PDF and e-mail output as an add-on to your printing solution.

More information can be found here: www.mpitech.com/pss-print-subsystem-afp-to-pdf-conversion.

New features and corrections in version 8.00.05

New features introduced since last release

- ✓ Support for z/OS 2.4
- ✓ Extended INLINE recourse table to 5000
- ✓ Dynamic domain identity handling. It is now possible to use other characters than '@' as domain identity character
- ✓ License key check every 24 hours. System log message when 30 or less days left of license
- ✓ Possible to combine CACHE=YES with SPLIT. If CACHE= YES thw cache will not be reset when split is used

Fixes introduced since last release

- ✓ New mail design due to SVC 0C4 dump
- ✓ Abend 0C1 when using OBJ Container with PDF printer solved
- ✓ Abend 0C4 when using OBJ Container with PDF printer solved
- ✓ S0D3 abend when faulty page segment used solved
- ✓ CMYK segment color translation corrected
- ✓ To many messages from DNS server not running on START command

Key features

- ✓ Compliant on all z/OS and OS/390 levels
- ✓ AFP, XML and SCS printing
- ✓ AFP to PDF and PDF/A conversion
- ✓ Multipage PDF support
- ✓ PDF 1.7 support
- ✓ JES and VTAM input
- ✓ PCL and PostScript output
- ✓ E-mail or PDF output
- ✓ Send output to secure print management solutions including document and user information

even if another DNS server is up running solved

- ✓ Program stop on license key check when no enddate on key solved

Maintenance and support

Important dates

PSS 8.00.04 and earlier is no longer supported with updates or new development. MPI Tech will maintain support and warranty. From October 2019 all error corrections will be performed on PSS 8.00.05 and will be offered to customers, holding maintenance, for any corrective action.

Upgrade for current users

Current users of PSS holding a valid maintenance contract will be offered a free upgrade to PSS 8.00.05 with similar options as their current setup. PSS 8.00.05 can be installed 'on top' of the already running PSS installation hereby maintaining existing printer definitions and configurations. An upgrade from version 8.00.04 and earlier to version 8.00.05 will not require a new license key for the installation.

PSS 8.00.05 accumulates the delivered bug fixes from PSS 8.00.04 and earlier thereby improving the stability and performance of the application.

Mainframe Suite options

AFP Conversion Module

Base product
ACM

Options
