### The 2013 version of EPM is now available.

Enterprise Print Manager®, EPM is a z/OS software solution for mainframe printing using network printers and print management, providing a single focal point for operation, control and administration.

The host data, AFP, XML as well as line data are converted into printer data streams such as PCL5 and PostScript. Additionally, host data can be web-enabled, offering AFP to PDF conversion for PDF-viewing and e-mail. Furthermore, Upload-and-Print functions are integrated.

More information can be found here:

<https://www.mpitech.com/content/enterprise-print-manager>

#### Key Features for EPM 1.10

- ✓ CICS Interface
- ✓ AFP, XML and SCS printing
- ✓ AFP to PDF and PDF/A conversion
- ✓ Multipage PDF support
- ✓ PDF1.7 support
- ✓ JES and VTAM input
- ✓ PCL and PostScript output
- ✓ E-mail or PDF output

## ***EPM 1.10 is available from November 30th, 2013***

#### Important dates

EPM 1.09 is now withdrawn from marketing. MPI Tech will maintain support and warranty service on EPM 1.08 for customers holding valid maintenance until end of June 2014. From December 2013 all error corrections will be performed on EPM 1.10 and will be offered to Customers, holding maintenance, for any corrective action.

#### Upgrade for current users

Current users of EPM holding a valid maintenance contract will be offered a free upgrade to EPM 1.10 with similar options. EPM 1.10 can be installed 'on top' of the already running EPM installation hereby maintaining existing printer definitions and configurations. An upgrade from version 1.08 or newer to version 1.10 will not require a new license key for the installation.

EPM 1.10 accumulates the delivered bug fixes from EPM 1.09 thereby improving the stability and performance of the application.

## ***EPM 1.10 features the following new functions***

New features introduced since last release

### **PDF Version 1.7**

Object Container structure now has support for PDF 1.7

### **Multipage PDF**

Object Container structure has support for Multipage PDF

### **Fixes introduced since last release**

PDFROT parameter was acting wrong for 180 and 270

Overlay was missing when running with parameter SPLIT

ALIGN FIELDS to match UEXIT1 COPY

PADDING SUPPORT FOR MDR(D3ABC3)

## EPM and its major options

Base product  
Enterprise Print Manager

Printers  
EPM PCL4-5 printers  
EPM Postscript printers  
EPM PDF printers  
EPM 3270 printers  
EPM ASCII printers  
EPM ICDS printers

Virtual Logical Units  
EPM PCL4-5 VLU's  
EPM Postscript VLU's  
EPM PDF VLU's  
EPM 3270 VLU's  
EPM ASCII VLU's  
EPM ICDS VLU's

Options  
EPM Color output  
EPM EMAIL output  
EPM JCL Submit  
EPM PDF Encryption  
EPM CICS interface

Upload and Print  
EPM Upload and Print for AIX  
EPM Upload and Print for Linux  
EPM Upload and Print for NT
