

Release note

LinkCom 5

Version: S80 652.030, June 1, 2016

New features and functionality

This version introduces new and improved features that eases the usability of the LinkCom 5 PrintServer.

- The ability to change and save passwords in PrintGuide as well as using the built-in web server.
- Configuration of the LinkCom PrintServer via a web browser.
- Automatic lookup of IP address.
- Direct test page printing when the LinkCom PrintServer is connected to a printer via USB.
- More information included on the test page like: Features installed, IPv6 and IPv4 address of the LinkCom, description of detected/selected printer. Emulation settings for each logical printer.
- Support for IPDS print on matrix printers.

Concern

Replaces earlier release S80 652.030 and will be introduced for all future orders.

Customers with valid maintenance can update to the newest version of the firmware.

Please contact [MPI Tech Support](#) for further information.
